

# INDUSTRIAL SOAPS

## OUR HISTORY / OUR BEGINNINGS

KALON MANTENIMIENTO INDUSTRIAL, operates in Spain since its creation in 1982, focused on the maintenance, conservation, and cleaning of the industry.

It has been linked to leading multinational companies in the chemical industry: TOTAL (France) and PPG (USA), evolving to become a benchmark in the sector, and since 2015 it is 100% Spanish capital.

Kalon has a network of technical sales representatives who provide their services in mainland Spain and the Canary Islands, satisfying the needs of the industry with innovative and quality products.

## R&D+i

The company's R&D activity is the driving force behind it and focuses on the development of innovative products, prioritising efficiency in the consumption of resources and the reduction of impacts on the environment throughout the entire life cycle of the product.

Our Research Centre is composed of:

- Research and Development Laboratory.
- Technical Support Laboratory.
- Quality Control Laboratory.
- Water Physical-Chemical Analysis Laboratory.

These facilities are supervised by a specialised technical team, which translates into offering chemical technology solutions for the industry, adapted to an increasingly demanding environment.

## KALON TODAY

Today we have a wide range of more than 700 products developed by our R&D department, aimed to industrial facilities, equipment, and machinery maintenance.

-We have implemented the ISO 9001:2015 Quality System and the ISO 14001:2015 Environmental Management System, leading us to maintain high self-imposed standards and continuous improvement.

-Kalon has an Industrial Health Register, a Pesticide Register, and Cosmetic Certifications for hand soaps.

-Within the food industry, we have the NSF, for a growing catalogue of products, which guarantee the protection of food, water, consumer products, and the environment.

-All these certifications achieved thanks to a highly professional team lead to receiving the Innovative SME seal.

# INDUSTRIAL SOAPS

## HIGH PERFORMANCES

## HAND NATURAL SCRUBS

### ESKU

Industrial hand gel with a high active matter content and natural scrub.

- Highly effective liquid gel that cleanses, cares for, and protects the skin.
- Keeps hands soft and free of irritations.
- Contains coconut and lanolin oils that moisturise and soften the skin.
- Free of caustic materials, dyes, and petroleum-derived solvents.
- Contains natural scrubs to facilitate the complete removal of the embedded dirt.
- Removes ink stains from the skin.
- Pleasant citrus scent.

⚙️ Mechanical workshops, graphic arts, glass, metal treatment, plastic injection.

📦 10 and 25 litre containers.  
Boxes of 4 containers with 4 litres each.  
Boxes of 12 containers with 500 ml each.

### MANS

Industrial hand gel with synthetic scrub.

- Easily removes grease and embedded dirt.
- Free of caustic materials, dyes, and petroleum-derived solvents.
- Contains natural scrubs to facilitate the complete removal of embedded dirt.
- Contains natural soap, plant components, and lanolin that act as skin protectors, moisturising and softening it.
- Pleasant citrus scent.

⚙️ General industry, mechanical workshops, steel mills, construction, agriculture.

📦 10 and 25 litre containers.  
Boxes of 4 containers with 4 litres each.

## BIODEGRADABLE

### TERMINATOR

Exfoliating hand cleaning gel with a high active matter content with vegetable scrub.

- Great cleaning power on firmly adhered grime, grease, soot, etc.
- Free of caustic materials, dyes, and petroleum-derived solvents.
- Contains lanolin, coconut oil, and glycerine, which provide softness and hydration to skin.
- Contains a high concentration of coarse-grained vegetable exfoliant to easily scrub the most embedded dirt.
- Removes ink stains from the skin.
- Pleasant citrus scent.

⚙️ Mechanical workshops, graphic arts, naval, hydraulics, railway.

📦 10 litre containers.  
Boxes of 4 containers with 4 litres each.

### THOR

Exfoliating hand cleaning gel with natural solvent and vegetable scrub.

- High cleaning power on very embedded grime.
- Free of caustics, petroleum-derived solvents, and dyes.
- Contains lanolin and coconut oil, which provide softness and hydration to skin.
- Contains fine-grain vegetable exfoliant.
- Pleasant citrus scent.

⚙️ General industry, mechanical workshops, methacrylate, MSW, wood.

📦 Boxes of 4 containers with 4 litres each.

# INDUSTRIAL SOAPS

## INDUSTRIAL SOAPS

### HAND CLEANERS

#### SPAN

Industrial hand soap in gel form with a high active matter content.

- ▶ Highly effective cleanser and degreaser.
- ▶ Does not contain abrasive compounds, petroleum-derived solvents, or caustic materials.
- ▶ Contains natural soap, plant components, and lanolin that act as skin protectors, moisturising and softening it.
- ▶ Removes ink stains from the skin.
- ▶ Pleasant citrus scent.

General industry, mechanical workshops, metal treatment, printing, railway.

10 and 25 litre containers.  
Boxes of 4 containers with 4 litres each.

#### KOR

Multipurpose industrial liquid hand soap.

- ▶ High cleaning power. Aimed at washing and caring for hands.
- ▶ Contains natural soap, plant components, and lanolin that act as skin protectors, moisturising and softening it.
- ▶ Pleasant lemon scent.
- ▶ Does not contain abrasive compounds.

Institutional: schools, hospitals, restaurants, coffee shop, food industry, machining, rubber industry, steel mills.

10 and 25 litre containers.  
Boxes of 4 containers with 4 litres each.

#### OPAL

Hand and shower gel.

- ▶ Cleanses, softens, and protects the skin.
- ▶ Contains coconut and lanolin oils that provide softness and hydration to skin.
- ▶ Has a pleasant scent.

Institutional: schools, hospitals, restaurants, coffee shop, food industry.

10 and 25 litre containers.

#### GERMATEK

Degreasing hand soap.

- ▶ Sanitises, cleanses, and protects the skin.
- ▶ Non-scented, dye-free.
- ▶ Contains Bronopol, which provides the sanitising action.

Food industry.

5 litre containers.  
2x5 boxes with dispenser.

## HAND WIPES

Wet hand cleaning wipes.

- ▶ No-rinse wet wipes.
- ▶ Degreasing and sanitising action.
- ▶ Removes all types of grime, including ink stains on the skin.
- ▶ Fabric with scrubbing effect to facilitate the removal of grime.
- ▶ No rinsing required, ideal for situations where there is no water nearby.
- ▶ Keeps hands soft and free of irritations, as it contains lanolin.
- ▶ Multipurpose: also suitable for working instruments and tools.

Graphic arts and mechanical workshops: fixed and mobile.

Boxes with 4 containers of 100 wipes each (27 x 25 cms)  
Boxes with 6 containers of 40 wipes each (19 x 16 cms)

## PRE SPAN

Barrier cream for hand care.

- ▶ White and pleasantly scented emulsion.
- ▶ Protects and cares for the skin, and avoids skin conditions.
- ▶ Easy absorption. Acts as an "invisible glove".
- ▶ Reduces harshness, increases hydration, and provides the necessary components for the protection and preservation of skin, such as urea, glycerine and lanolin.
- ▶ Protects the skin of the operator against the attack of products such as emulsions, cutting oils, industrial oils...

Industry in general.

Boxes of 12 containers with 500 ml each.

## KOL

Hand sanitizing gel.

- ▶ Gives a pleasant feeling of freshness, and it is quickly absorbed.
- ▶ Formulated with aloe vera and glycerine which provide natural hydration to care and keep your hands in perfect condition.
- ▶ Slightly blue in order to avoid confusion and accidental ingestions.

Industry in general.

Boxes of 12 containers with 1 litre each.  
Boxes of 4 containers with 5 litres each.

ALL our industrial hand wash soaps are manufactured under the COSMETIC standard according to Regulation (EC) 1223/2009 of the European Parliament on cosmetic products. This regulation stipulates that, among other requirements, different tests must be carried out, including skin compatibility. ALL our soaps have been declared as NO irritants in DERMATOLOGICAL TESTS. All have GOOD SKIN COMPATIBILITY and have been TESTED UNDER DERMATOLOGICAL CONTROL. They have not been tested on animals. Do not contain parabens. Does not contain prohibited substances listed in Annexes II and III to that Regulation.

Cosmetic products are subject to the obligations laid down in Regulation EC 1223/2009 of the European Parliament and of the Council of 30 November 2009 on cosmetic products. Products are NOT subject to Regulation (EC) No 1272/2008 (CLP) of the European Parliament and of the Council of 16 December 2008 on classification, labelling, and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (REACH).
